DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Monday, 11 September 2023 at 05:12 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Much of the UK should see Low air pollution levels. There remains a chance of localised areas of Moderate air pollution in the southeast of England in advance of fresher and more changeable weather conditions.

Tomorrow: Air pollution should become generally Low for all parts of the UK.

Outlook: Mainly Low levels of air pollution are expected for much the country, however there remains a chance of localised Moderate areas in the far south and southeast later in the working week.
